FOR IMMEDIATE RELEASE

Melco Announces Unaudited Third Quarter 2021 Earnings

Macau, Tuesday, November 9, 2021 – Melco Resorts & Entertainment Limited (Nasdaq: MLCO) (“Melco” or the “Company”), a developer, owner, and operator of integrated resort facilities in Asia and Europe, today reported its unaudited financial results for the third quarter of 2021.

Total operating revenues for the third quarter of 2021 were US\$446.4 million, representing an increase of approximately 110% from US\$212.9 million for the comparable period in 2020. The increase in total operating revenues was primarily attributable to improved performance in all gaming segments and non-gaming operations as a result of a year-over-year increase in inbound tourism in Macau.

Operating loss for the third quarter of 2021 was US\$182.2 million, compared with operating loss of US\$275.0 million in the third quarter of 2020.

Melco generated Adjusted Property EBITDA⁽¹⁾ of US\$31.9 million in the third quarter of 2021, compared with negative Adjusted Property EBITDA of US\$76.7 million in the third quarter of 2020.

Net loss attributable to Melco Resorts & Entertainment Limited for the third quarter of 2021 was US\$233.2 million, or US\$0.49 per ADS, compared with net loss attributable to Melco Resorts & Entertainment Limited of US\$331.6 million, or US\$0.70 per ADS, in the third quarter of 2020. The net loss attributable to noncontrolling interests was US\$35.3 million and US\$55.3 million during the third quarters of 2021 and 2020, respectively, all of which were related to Studio City, City of Dreams Manila, and the Cyprus Operations.

Mr. Lawrence Ho, our Chairman and Chief Executive Officer, commented, “Continued travel restrictions and quarantine measures in Macau and the region negatively impacted our third quarter operating and financial performance. To preserve our cash and liquidity, we continue to enforce strong cost control discipline in respect to both operating expenses and capital expenditures.

“Macau remains one of the safest regions in the world thanks to the government’s careful handling of the global pandemic, and we applaud the government’s effort to further increase vaccination rates towards the goal of increasing immunity in Macau. At Melco, we continue to encourage vaccination uptake as a key company objective that will help to ensure a safe environment for colleagues, guests,

and the community at large. Thanks to strong participation in our “Get the Jab” vaccination incentive campaign, Melco’s vaccination rate in Macau has reached close to 95%. We look forward to further travel integration between mainland China and Macau, once Macau achieves an acceptable vaccination rate, and we remain fully committed to doing our part for the betterment of the community.

“Looking forward, we remain confident that pent-up demand for Macau remains intact and strong.

“Meanwhile, Melco remains steadfast to its investment commitments in Macau, where we are a leader in driving the growth and diversification of the Macau economy. The construction of Studio City Phase 2 is progressing on track for completion before December 27, 2022. This expansion will offer approximately 900 additional luxury hotel rooms and suites, an additional indoor/outdoor water park which is expected to be one of the largest in the world, a Cineplex, multiple fine-dining restaurants, and state-of-the-art MICE space.

“In Europe, the development of City of Dreams Mediterranean continues and is on track with our target opening date in the second half of 2022. The project represents Europe’s largest integrated resort with approximately 500 luxury hotel rooms, approximately 100,000 square feet of MICE space, an outdoor amphitheater, a family adventure park, a variety of fine-dining outlets, and luxury retail.

“We have discontinued our pursuit of an integrated resort development in Japan and will close our offices there in the coming months.

“Additionally, we have recently repurchased approximately 3.1 million ADSs for approximately US\$31 million. These share repurchases reflect the confidence we have in our company, our long-term strategy, and our future growth prospects.

“Last, we are proud of our achievements in sustainability at Melco. In the third quarter, we were awarded the PATA Gold Awards 2021 in the “Climate Change Initiative” category, while International Gaming Awards 2021 named us “Sustainable Resort of the Year” in City of Dreams Macau. Through our initiatives, we have significantly reduced food waste, greenhouse gas emissions, the usage of harmful chemicals, and the consumption of single use plastics across our properties.”

Recent Developments

COVID-19 outbreaks continue to have a material effect on our operations, financial position, and future prospects in the fourth quarter of 2021.

In Macau, our operations have been impacted by on-and-off travel restrictions and quarantine requirements as imposed by the governments of Macau, Hong Kong, and China in response to isolated cases. The appearance of COVID-19 cases in early August 2021 led to city-wide mandatory testing, mandatory closure of most entertainment and leisure venues (casinos and gaming areas excluded), and strict travel restrictions and requirements being implemented to enter and exit Macau. Similarly in late September 2021, the identification of additional COVID-19 cases again led to a repeat of testing, closure, and travel restrictions, which led to reduced turnout for October Golden Week holiday. Since October 19, 2021, authorities have eased pandemic prevention measures such that travelers no longer require a 14-day quarantine on arrival in Zhuhai, and the validity of negative nucleic acid tests were extended from 24 hours to 48 hours or seven days. As a result, our visitation has been gradually recovering.

In the Philippines, City of Dreams Manila was operating at limited capacity since the beginning of the quarter until August 5, 2021, when Manila was put into lockdown on August 6, 2021 due to a surge in COVID-19 cases. On September 17, 2021, City of Dreams Manila reopened operations with capacity limited at 50% under the new Alert Level 4 classification. Hotels were not open to the general public, but indoor F&B operations were allowed to take customers who had been vaccinated. On October 16, 2021, the Philippines downgraded to Alert Level 3, allowing hotels to take vaccinated local guests on staycation packages. Most recently in the fourth quarter, this was further downgraded to Alert Level 2 on November 5, 2021 allowing hotels to take leisure guests. Meanwhile, from a business development front, City of Dreams Manila commenced operating online gaming, namely, live-dealer table games on August 10, 2021 and slot machines on September 15, 2021 after receiving the required approvals from PAGCOR. Such online gaming offerings are only available to registered patrons of City of Dreams Manila inside the Philippines.

In Cyprus, our casinos were fully opened throughout the third quarter and we saw sequential improvement versus the second quarter thanks to progressively higher permitted capacities and increased visitation over the summer months, although with permitted capacity limited at 50%. Certain other COVID-19 restrictions continue to remain in force, such as wearing of masks on the casino floor and smoking only in designated areas.

The pace of recovery from COVID-19 will depend on future events, including duration of travel and visa restrictions, the pace of vaccination progress, development of new medicine for COVID-19, the impact of potentially higher unemployment rates, declines in income levels, and loss of personal wealth resulting from the COVID-19 outbreak affecting discretionary spending and travel, all of which remain highly uncertain.

Melco Resorts & Entertainment Limited (the “Company”) may also make forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the “SEC”), in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about the Company’s beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) the global pandemic of COVID-19, caused by a novel strain of the coronavirus, and the continued impact of its consequences on our business, our industry and the global economy, (ii) growth of the gaming market and visitations in Macau, the Philippines and the Republic of Cyprus, (iii) capital and credit market volatility, (iv) local and global economic conditions, (v) our anticipated growth strategies, (vi) gaming authority and other governmental approvals and regulations, and (vii) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as “may”, “will”, “expect”, “anticipate”, “target”, “aim”, “estimate”, “intend”, “plan”, “believe”, “potential”, “continue”, “is/are likely to” or other similar expressions. Non-GAAP Financial Measures

- (1) “Adjusted EBITDA” is net income/loss before interest, taxes, depreciation, amortization, pre-opening costs, development costs, property charges and other, share-based compensation, payments to the Philippine parties under the cooperative arrangement (the “Philippine Parties”), land rent to Belle Corporation and other non-operating income and expenses. “Adjusted Property EBITDA” is net income/loss before interest, taxes, depreciation, amortization, pre-opening costs, development costs, property charges and other, share-based compensation, payments to the Philippine Parties, land rent to Belle Corporation, Corporate and Other expenses and other non-operating income and expenses. Adjusted EBITDA and Adjusted Property EBITDA are presented exclusively as supplemental disclosures because management believes they are widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted EBITDA and Adjusted Property EBITDA as measures of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors.

The Company also presents Adjusted EBITDA and Adjusted Property EBITDA because they are used by some investors as ways to measure a company’s ability to incur and service debt, make capital expenditures, and meet working capital requirements. Gaming companies have historically reported Adjusted EBITDA and Adjusted Property EBITDA as supplements to financial measures in accordance with U.S. GAAP. However, Adjusted EBITDA and Adjusted Property EBITDA should not be considered as alternatives to operating income/loss as indicators of the Company’s performance, as alternatives to cash flows from operating activities as measures of liquidity, or as

alternatives to any other measure determined in accordance with U.S. GAAP. Unlike net income/loss, Adjusted EBITDA and Adjusted Property EBITDA do not include depreciation and amortization or interest expense and, therefore, do not reflect current or future capital expenditures or the cost of capital. The Company compensates for these limitations by using Adjusted EBITDA and Adjusted Property EBITDA as only two of several comparative tools, together with U.S. GAAP measurements, to assist in the evaluation of operating performance.

Such U.S. GAAP measurements include operating income/loss, net income/loss, cash flows from operations and cash flow data. The Company has significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, taxes and other recurring and nonrecurring charges, which are not reflected in Adjusted EBITDA or Adjusted Property EBITDA. Also, the Company's calculation of Adjusted EBITDA and Adjusted Property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of Adjusted EBITDA and Adjusted Property EBITDA with the most comparable financial measures calculated and presented in accordance with U.S. GAAP are provided herein immediately following the financial statements included in this press release.

- (2) "Adjusted net income/loss" is net income/loss before pre-opening costs, development costs, property charges and other, loss on extinguishment of debt and costs associated with debt modification, net of noncontrolling interests and taxes calculated using specific tax treatments applicable to the adjustments based on their respective jurisdictions. Adjusted net income/loss attributable to Melco Resorts & Entertainment Limited and adjusted net income/loss attributable to Melco Resorts & Entertainment Limited per share ("EPS") are presented as supplemental disclosures because management believes they are widely used to measure the performance, and as a basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to income/loss and EPS computed in accordance with U.S. GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net income/loss attributable to Melco Resorts & Entertainment Limited and adjusted net income/loss attributable to Melco Resorts & Entertainment Limited per share may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of adjusted net income/loss attributable to Melco Resorts & Entertainment Limited with the most comparable financial measures calculated and presented in accordance with U.S. GAAP are provided herein immediately following the financial statements included in this press release.
